

Dear Joseph,

This is just a small note to thank you for all your assistance with providing entertainment for our wedding Ceremony.

I cannot speak more highly of your service. You made the whole experience (from my first enquiry mail and onwards) seamless and enjoyable.

You answered each and every question I had so efficiently and always worked to ensure that my requests were met. I would also like to mention that I truly appreciate you going beyond the call of duty and corresponding with the Waverley Council regarding sound limitations on our behalf. All of these small details made an enormous difference to my wedding planning stress levels and that is something I will always be grateful for.

Evelyn and Joseph (Jazz duo) were amazing. Not only did they conduct themselves with a level of professionalism, which can only be admired, but they are of course also incredibly talented. I can honestly say that I enjoyed their renditions of the songs that I requested more than the original versions and Evelyn's initiative to add French songs once she realized a number of the our guests were French was a beautiful touch. We feel privileged to have had them perform on our special day and could have sat and listened to them for hours.

I will be singing the praises of Lippinc and Evelyn and Joseph for many years to come.

Yours truly,

Leanissa Fenery.
